

I think it is sad when people have signed up for unwanted call protection and others do so much to challenge it. What part of NO do they not understand? If I want information from these challengers, I can call them, I do not want or need them to interrupt my home life. I pay the extra money for an unlisted phone number because I VALUE my privacy. I do not want banks or any others calling me just because I have done business with them. Please withdraw this petition immediately. Numbers speak volumes and the volumes of Indiana residents that have signed up and continue to sign up for the NO CALL LIST should speak for itself. Thank you, Kathie Smith
